

**8:30-9:15 registration**

**9:15-9:30 opening**

**9:30-10:30 Keynote: Professor Usha Goswami**

**10:30-11:30 Talks (dyslexia and rhythm perception)**

*10.30 - 10.50 Tamara Rathcke "Towards a comprehensive account of rhythm processing issues in developmental dyslexia" /online*

*10.50 -11.10 Shauni Van Herck "Neural synchronization to rise time cues and intervention in pre-readers at risk for dyslexia" /on-site*

*11.10-11.30 Kanad Madke "Neural sampling of the speech signal by children with dyslexia" /online*

**11:30-12:00 Break**

**12:00-13:00 Talks (children and early readers)**

*12.00 -12.20 Marina Kalashnikova "Maternal speech quality as a predictor of pre-school phonological abilities in children at- and not at-risk for dyslexia" /on-site*

*12.20 - 12.40 Emily Barnes "Separating components of bilingual phonemic awareness: implications for bilingual assessment for dyslexia" /on-site*

*12.40 - 13:00 Jose Perez-Navarro "Utterance-level temporal regularities in child-directed speech" /online*

**13:00-14:30 Lunch**

**14:30-15:30 Talks (mixed bag of neuroimaging)**

*14.30 - 14.50 - Sabrina Turker "The role of the left temporo-parietal cortex for pseudoword processing: evidence from combined neuroimaging and brain stimulation" /online*

*14.50 -15.10 Gwendoline Mahé "Phonological priming in dyslexic adults: New insight from ERPs in a word naming task" /on-site*

*15.10-15.30 Anastasia Klimovich-Gray "Semantic predictions in speech linked to better reading in dyslexia: an MEG study" /on-site*

**15:30-16:30 Posters (30 second slam + on-site posters and wine)**

**16:30-17:30 Keynote: Professor Alan C. L. Yu**

**17:30-17:45 closing remarks**
